Abstract

Chip Rose rightly remarked, “We all use language to communicate, to express ourselves, to get our ideas across, and to connect with the person to whom we are speaking. When a relationship is working, the act of communicating seems to flow relatively effortlessly. When a relationship is deteriorating, the act of communicating can be as frustrating as climbing a hill of sand.” Astrology is a window into unseen realms. It helps us learn who we are and others too. Further, it serves as a tool to enhance our understanding and compassion towards others. Zodiac signs do influence the communication skills of an individual; as astronomical signs do make a person articulate and inarticulate. In this paper each sign has been studied carefully in male and female perspective to reach to such a conclusion.

Chip Rose rightly remarked, “We all use language to communicate, to express ourselves, to get our ideas across, and to connect with the person to whom we are speaking. When a relationship is working, the act of communicating seems to flow relatively effortlessly. When a relationship is deteriorating, the act of communicating can be as frustrating as climbing a hill of sand.” Astrology is a window into unseen realms. It helps us learn who we are and others too. Further, it serves as a tool to enhance our understanding and compassion towards others.

Zodiac signs do influence the communication skills of an individual; as astronomical signs do make a person articulate and inarticulate. In this paper each sign has been studied carefully in male and female perspective to reach to such a conclusion.

They are subtle in her behavior and words; in verbal and non-verbal communication both. She is repulsive, materialistic, and high on emotions, restless and impatient, even egoistic at times. She is submissive and flexible but can get easily influenced. But she can maintain ‘grace under fire.’

Capricorn men are loud, flamboyant, centre of attraction, aggressive, organized, particular and egoistic. He is a natural charmer and gets his way easily with others; be his ‘yes man’ because he is incapable of handling criticism. But he can turn into a turtle and get into hardest shell to shun the world. The word ‘enough’ doesn’t exist in his lexicon which makes him run from one milestone to another. The term ‘second chance’ doesn’t exist for this man. A lone Capri man is like a Sphinx – once he has fixed something in his rigid mind he’s just as immovable.

The word articulate is generally defined as being able to speak clearly and coherently. The concept of astrology is relating each human being to astronomical bodies. These Astronomical bodies comprise of the sun, moon, stars and planets. Signs are based on the date of birth of an individual. Astronomers believe these signs reflect an individual's character or personality. Articulate Astrology signs are signs that fall into the category of being fluent and convincing speakers. There are five main signs that fall into this category: Gemini, Virgo, Sagittarius, Libra, and Aquarius. In perspective, these signs are all different from each other, but they do share one thing. To be articulate is to use "big" words, and expressing feelings confidently. Articulate signs are excellent public speakers and are good at conveying an audience.

Aries, Taurus, Leo and Capricorn are inarticulate signs. As each of sign is symbolized by its own symbols, animals symbolize these inarticulate signs. Having good communication skills will enable you to get ahead in certain areas where others who are less assertive may not succeed.
