

PATCH OF CLOUD

Dr. Sushil Kumar Mishra

Associate Professor & Former Head, Department of English, SRM University, Sonapat, Haryana

Cloud! Cloud! A patch of cloud
Wandering to and fro and thundering loud.

Moving from place to place
Without having proper trace.

Arriving with cooling power
Filling the atmosphere with heavy shower.

Irrigating the crops
With rain drops.

Watering the fields
Saving crops like shield.

Inspiring human beings
To live for all beings.

A great gift of nature
And a boon for all creatures.

Existing for a short time
And depart anytime.

O Cloud! Stay! Stay!
Do not run away..

Am not I
A cloud like thee?
Are not thou
A man like me?
