

Of Clarification

Dibakar Pal

Abstract

Clarification implies to make an idea, statement, etc. clear or intelligible thus to free from ambiguity. It is good to make illustrious clarification for any methodology, theory so that no ambiguity confuses the researchers. In love affairs the relation depends on the clarification in every footstep. Here both fiancé and fiancée do suffer from anxiety if be deserted by either or both. Clarifier acts as interpreter. An interpreter must have sound knowledge on the concerned matter. Here interpreter acts as implementer.

Key Words: Clarification, clearer, easier, confusion, ambiguity, purify, transparency

INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform rather reveals, so it bears no reference. The best creative writing is critical, and the best critical writing is creative. The present article is the outcome of creative writing meant for lay readers. As such free style is the methodology adopted so that pleasure of reading can be enjoyed by the common mass. As you know well that Francis Bacon (1561-1626), the immortal essayist, wrote many essays and notably, Of Love, Of Friendship, Of Ambition, Of Studies, etc. The myriad-minded genius rightly pointed out that all the words of the dictionary can be the themes of essays one can write. But little has been done, in this regard since his death, in order to finish his unfinished monumental works. In fact Bacon's way of presentation i.e., his unique style kindled the imagination already in me and encouraged me as well to write essays, in the light of creative writing, thus to get relief through Catharsis.

ARTICLE

Clarification implies to become or make something clearer or easier to understand.

It removes confusion. It diminishes doubt. It deals with transparency. Its outcome is transparent. It means to purify. It is to remove impurities. Further, clarification means to make something, especially a fat, pure by heating it. It is to make clear or pure, especially butter, liquid, air, etc. free from impurities thereby transparent. It is to make fat-free of liquid and butter, etc.

To remove impurities from raw butter means to clarify butter. Similarly clarified syrup is obtained. Thus clarified butter and clarified syrup are used for safe human consumption. To get pure food clarification is a must. To avoid health hazard and for safety of health clarification is adopted for food and medicine. Similarly, clarified air helps a patient for early recovery. Further, clarified air is suitable for an aeroplane to fly smoothly.

Clarification highlights transparency. Transparency is an important factor in every sphere of life in case of both man and machine. Clarification thereby coordination is required between policy maker and executor. A computer program is a series of commands in One (1) and Zero (0). Computer asks for clarification to

opt either One (1) or Zero (0) in every foot step thus to run the program smoothly. The command in the program is done lucidly. Any mistake will render the whole program quite frustrated.

Clarification implies to make an idea, statement, etc. clear or intelligible thus to free from ambiguity. It is good to make illustrious clarification for any methodology, theory so that no ambiguity confuses the researchers. In love affairs the relation depends on the clarification in every footstep. Here both fiancé and fiancée do suffer from anxiety if be deserted by either or both. Clarifier acts as interpreter. An interpreter must have sound knowledge on the concerned matter. Here interpreter acts as implementer.

Clarification is done to free the mind, intelligence, etc. from confusion. It is done to revive the mind in its previous normal state. Then no tension is experienced by any nerve cell of the brain. Clarification is to become clear, pure or intelligible. A shrewd politician is always certain when the political situation would eventually clarify. Clarification is to make clear of difficult subject, obscure statement, mind, sight, etc. Clarification renders obscure to crystal clear and lucid having no ambiguity. Clarification makes clear both literal and figurative of literary style.

Clarified point is a must for judicious decision in the court. A judicious person always clarifies his stand to avoid complicity. He does it for his own safety. Then none can blame him. None can consider him as a corrupted person. A corrupted person is murdered or has to welcome premature death due to tension. Here lies the importance of self-clarification. Transparency is an important

tool to tackle the reality. A wise uses it for his safe-guard. In a patriarchal society chastity of bride has to be clarified for getting green signal from the groom.

Clarification of remark and clarified remark are very vital in any logical argument. In any debate both clarity of thought and clarification are two pillars to establish the opinion. Statement is of two types either verbal or written. Verbal statement can be clarified either in exaggerated or understated form due to its vocal tone or temperament. But written statement cannot be manipulated through clarification. To avoid manipulation is a herculean task. For its clarification tons of paper is required to convert the situation favourable. The situation becomes worse more when further clarification is required for previous clarification. If clarification is not done with utmost care then the situation becomes clumsy for series of statements. The treaty between two rival countries should not or need not require any clarification for the implementation of clauses as laid down in the agreement. If there is breach of contract then the whole issue needs clarification to make further clarifications of the contract.

To clarify one's meaning is to be performed by the person himself. Otherwise third party's interpretation may be misleading. In many cases third party without realising the matter clearly tries to clarify the matter in an obscure manner. It is a fact that if a person cannot realise a matter clearly then he cannot clarify the concerned matter lucidly. In research works clarification has immense effect.

In case of huge amount of cheque or in case of serious operation of a dying patient clarification is very important. Thus if the

matter is important clarification is also important. Clarification is alias and akin to care. And care is taken since the loss of money and life can never be compensated. If the matter is nominal clarification required is less. If the loss is less or if the risk is less then clarification is not always taken. In case of loss the concerned person compensates if be asked. In some cases authority forgives if the track record of the employee is good or no ill motive played behind his initiative. A poor person or a dull-headed fool seldom does anything without prior approval or clarification.

Any law when is enforced there may be problem for its execution. Then the law is amended and clarified thereby. In cricket, sometimes, the out of a batsman depends on clarification of third umpire. This clarification is taken to avoid complication aroused from bias or match fixing. Here, benefit of doubt goes in favour of batsman. Someone calls it demerit of clarification. But a judicious batsman opines that clarification may not favour him always. Sometime it favours. Sometime it favours

REFERENCES

No reference, since the present article is an outcome of Creative Writing.

not. Thus, the summation of for and against of out in his entire tenure of cricket life is equal to zero. This confession can only be made by a player having sportsmanship. He is the real hero.

CONCLUSIONS

A wise person clarifies always. He is worshipped as prudent clarifier for illuminating dark assertions. Clarificatory research works of medieval period are valued much for its obscurity. An honest person suppresses never. His movement is beyond suspicion. Dishonest and corrupted persons take the opportunity of ambiguity always. Nepotism is done without clarification of obscure matter rather with bad intention. A shrewd politician always tries to fish in troubled water. A fool does not take clarification. He is unable to realize the importance of taking clarification. He follows blindly, rather bluntly. A criminal does if his purpose is served. If not then takes clarification. A powerful person goes without clarification. He takes clarification if he likes. He takes not if he likes not.
