- 5- "Applied ethics is the Philosophical examination, from a moral standpoint, of particular issues in private and public life that are matter of moral judgement." It is thus a term used to describe attempts to use philosophical methods to identify the morally correct course of action in various field of human life. Wikipedia, The free encyclopedia by the words of Brenda Almod, co-founder of the society for Applied Philosophy.
6. "Applied ethics is engaged in moral debate for increase the philosophy of moral judgement." - Ibid.
7. "Applied ethics is a discipline of philosophy where in theoretical ethics, like hedonism, Utilitarianism, perfection social contract theory etc. are applied in context with problems of life. This is why most of the problems of applied ethics are related to human rights, environmental conservations, human virtues and business/professional ethics."Wikipedia Encyclopedia.
